The WHO country health profile of India provides key statistics and links to health topical databases, plus news, features and Bulletin journal articles on the health issues of the country. Updated November 2012

### **India - WHO | World Health Organization**

A developing country (or a low and middle income country (LMIC), less developed country, less economically developed country (LEDC), or underdeveloped country) is a country with a less developed industrial base and a low Human Development Index (HDI) relative to other countries. However, this definition is not universally agreed upon.
